

Maths

Throughout KS2, the children will build upon their existing knowledge of the fundamentals of maths. With the application of skills to other areas of the curriculum, the children will be encouraged to reason mathematically, develop their problem solving, and be taught how to persevere in seeking solutions. All of these elements will lead to the children showing *mastery* of the subject.

Topics to be covered in terms 3 and 4 will include:

Fractions, Decimals and Percentages

Multiplication and Division

Algebra and Ratio

Measurement

Curriculum News

KS2 Terms 3 & 4 2018

Topic– Vikings and Anglo Saxons

Our 'Vikings and Anglo Saxons' topic will cover aspects of both history and geography over terms three and four.

Geography aims: To learn about human processes and the formation and use of landscapes and environments, giving children the knowledge to be able to understand how the Earth's features at different scales are shaped, interconnected and change over time.

History aims: To know and understand significant aspects of the history of the wider world: the nature of ancient civilisations and characteristic features of past societies.

English

Writing: This term, we are incorporating our Topic into our English lessons through the book 'How To Train Your Dragon'. As such, we will cover a range of genres and writing styles throughout the term, alongside the book. They will plan, edit and improve their writing to communicate their ideas in organised and coherent ways.

Reading: We will encourage the children to read a variety of fiction and non-fiction texts and develop their comprehension skills through discussions within whole class, guided and individual reading opportunities.

Spoken Language: The children will make formal presentations, demonstrating their understanding to others and participate in debates, using discussion in order to learn and be encouraged to elaborate and explain their ideas clearly.

Religious Education

Term 3– Christian Journeys (Easter)

Term 4– S

The children will learn about beliefs and values, of themselves and others, and be encouraged to question and reflect on their own perceptions and experiences.

Master classes

Within Art, the children will learn to explore, develop and evaluate their ideas using a range of artist mediums, including photograph.

Within Design and Technology, the children are designing their own tartans and weaving. They will also be learning about the different types of weaves.

Science

Animals and Living Things

This topic will included:

Year 3/4– Teeth and the Skeleton

Year 5/6– The circulatory systems and changes in the human body, as people age.

British Values

Faith and belief in our own abilities and goals will be taught during PSHE during term three.

Music

Year 3 and 4: Lincoln Music Service

Year 5 and 6: Young Voices and Djembe

The children will be exploring composition of music throughout the years, including the instruments used.

During term 4, all pupils will work on the Spring Concert preparation.

Physical Education

This term we will be focusing on developing our ball skills within competitive games. Focusing on volleyball and continuing on from the skills we developed in our hockey unit of work.
